*Zero Tolerance For Corruption, Unethical  
Practices, And Illegal Activities.*

# FR UNDERSTANDING CORRUPTION AND CDD

## **What is Fraud?**

Fraud is any dishonest activity designed to gain unfair benefits. Examples include:

- Tampering with electricity meters to reduce or bypass bills.
- Illegal electricity connection.

## **What is Corruption?**

Corruption is the abuse of power for personal gain. Examples include:

- Offering or accepting bribes to avoid penalties for illegal connections.
- Nepotism in awarding service contracts.

## IMPACT/ EFFECTS OF FRAUD

- **Higher Bills:** Honest customers pay more to cover losses caused by fraud.
- **Power Outages:** Illegal connections strain the grid, causing blackouts.
- **Safety Risks:** Tampering with electricity can cause fires or electrocution.

## IMPACT OF CORRUPTION ON OUR NATION

- **Service Delays:** Public resources are misallocated.
- **Economic Impact:** Companies lose funds to bribery, reducing investment.
- **Erosion of Trust:** Communities lose faith in public institutions.

## CONSEQUENCES OF FRAUD AND CORRUPTION

- Penalties include heavy fines or imprisonment.
- Risk of permanent disconnection of power.
- Damage to personal reputation and career.

Zero Tolerance  
for Corruption
