

BOTSWANA POWER CORPORATION

ELECTRICAL SAFETY PRECAUTIONS DURING HEAVY RAINFALL AND THUNDERSTORMS

To ensure safety do the following;

01

Avoid contact with fallen power lines or infrastructure as they may be **LIVE** and pose the risk of electrocution.

02

Switch off power supply if flooding occurs or water begins to enter your home or business.

03

Do not use or touch electrical outlets with wet hands or feet.

04

Move electrical equipment to higher ground to avoid contact with flood water.

05

Avoid unsafe electrical connections: Seek professional assistance with electrical faults at your home or business.

Treat all electricity outlets as **“LIVE”** and switch off all appliances until power is restored.
